HYDRAULIC PRESS MACHINES

Hydraulic Blanking Cutting Press - 75 Tons

The Hydraulic Blanking Cutting Press - 75 Tons is a heavy-duty machine designed for high-force blank cutting of gold and silver sheets. Suitable for producing blanks ranging from 1g to 1 Kg, it ensures clean, precise cuts with uniform dimensions, even for thicker and larger blanks.

Product Features

- Heavy-duty construction for high-tonnage applications
- Ideal for gold and silver blank cutting (1g to 1 Kg)
- Produces clean and sharp edges for superior minting results
- Hassle-free operation with dual operating modes - foot pedal & switch
- Stopper system for continuous and uniform cutting
- Designed for long working hours with low maintenance

Published Specifications

Machine Type	Hydraulic Blanking Cutting Press
Tonnage Capacity	75 Tons
Application	Gold & Silver Blank Cutting
Blank Weight Range	1g – 100g
Material Form	Rolled Gold & Silver Sheets
Cutting Method	Through Cutting Dies
Blank Shapes	Round, Rectangular, Pendant & Custom
Operation Mode	Foot Pedal & Switch (Dual Mode)
Edge Finish	Clean & Sharp Cutting
Stopper System	Provided for Continuous Cutting
Hydraulic System	Heavy-Duty, High-Pressure
Construction	Reinforced Heavy-Duty Structure
Duty Cycle	Continuous Industrial Operation
