CNC MACHINES

Ravonix CNC Machine

The Ravonix CNC Machine is a compact, precise, and highly efficient solution designed specifically for jewellery cutting, shaping, and detailed engraving work. Engineered for fine gold pieces, this machine delivers exceptional control and accuracy, making it ideal for intricate jewellery designs.

Materials

- Brass
- Aluminium
- Copper
- Wood
- Other suitable materials

Applications

- Artistic 3D engraving
- Jaali work
- Brass sheet engraving
- Jewellery coin die engraving
- Jewellery engraving
- Dulling hand press work
- Moulds and dies engraving
- Bowl and silver plate engraving

Published Specifications

Parameter	Specification
Working Area	240 mm × 280 mm × 100 mm
Spindle	0.8 kW, 24,000 RPM, Air Cooled
Controller	PC Console Controller
Motor	Microstep Drive Motor
Enclosure	Fully enclosed fabricated body for safe operation
Power Supply	Single Phase 220V Operating Machine
Metal Recovery	Maximum precision metal recovery fixture
Coolant System	Mist coolant system optional
